## INDUSTRIES DEPARTMENT NOTIFICATION

Simla-4, the 30th January, 1965

No. 4-4/64-Ind. II.—The Lieutenant Governor, is pleased to substitute Rule 4 of Chapter V of the Rules for the Maintenance of Stores and Accounts at the Industrial Centres of Himachal Pradesh by the following Rules, and to add a new Chapter VI thereafter:—

4. (i) If owing to the sudden fall of prices of raw material or any sudden fluctuations in the market condition or poor finish of manufactured stores, it is found impossible to realise the cost of material, the selling price of the articles manufactured at the Industrial Training Centres and Common Facility-run-Production Centres, shall be fixed on the basis of the cost price of the raw material actually used in their manufacture plus actual wages and incidental charges.

(ii) The District Industries Officers/Marketing Officer (Industries) should make every efforts to sell all the articles within one year of their manufacture. In cases, where it is not possible to do so, they should report the position by giving cogent reasons.

(iii) The individual customers will not be allowed any discount on their purchases.

(iv) Every year in October, a list of articles remained unsold for a year will be prepared for taking special steps to sell them. The list will be submitted to the Director of Industries for reduction in prices. On his approval sales of these articles at reduced prices should be commenced from a particular date fixed by the District Industries Officer/Marketing Officer (Industries). When it is seen that even after the reduction in prices, certain articles remain unsold for about six months after the reduction, arrangements may be made to sell them by auction for which approval of the Director of Industries should be obtained.

## CHAPTER VI CONDEMNATION OF SURPLUS/SERVICEABLE AND UNSERVICEABLE ARTICLES

### 1. CONDEMNATION OF SURPLUS/SERVICEABLE AND UNSERVICEABLE ARTICLES

(i) All surplus articles serviceable and unserviceable including tools, equipment and manufactured goods requiring early disposal will be stored separately. The District Industries Officer/Marketing Officer (Industries) will take the initiative by sending yearly to the Director of Industries a list of items considered unserviceable or otherwise together with the date of their purchase and book value, in the following form duly signed by him:—

- (i) Item number.
- (ii) Particulars of stores.
- (iii) Quantity/weight.
- (iv) Book value/original purchase price.
- (v) Year of purchase.
- (vi) Present condition.
- (vii) Mode of disposal (sale, public auction or otherwise).
- (viii) Remarks.

Perishable articles should however, not be accumulated for more than six months.

(ii) If the book value of the articles is less than Rs. 2,500 the District Industries Officer/Marketing Officer (Industries) will recommend these articles being declared by the competent authority as surplus, unserviceable and obsolete, after recording a certificate that he has personally inspected them and that the articles have not become unserviceable/obsolete due to negligence on the part of some individual Government servant which might possibly call for disciplinary action requiring the orders of higher authority.

(iii) Where the book value is Rs. 2,500 or more (but not over Rs. 5,000) Deputy Director of Industries after personal inspection will recommend these articles being declared by the competent authority as surplus, unserviceable and obsolete, after recording a certificate that he has personally inspected them and that the articles have not become unserviceable/obsolete due to negligence on the part of some individual Government servant which might possibly call for disciplinary action requiring the orders of higher authority.

(iv) Where the book value of the articles is over Rs. 5,000 the Director of Industries will, after the personal inspection recommend these articles being declared by the competent authority as surplus, unserviceable and obsolete, after recording a certificate that he has personally inspected them and that the articles have not become unserviceable/obsolete due to negligence on the part of

some individual Government servant which might possibly call for disciplinary action requiring the orders of the higher authority.

(v) The report of the stores surveyed by the aforesaid officers will be prepared separately for articles for destruction, for conversion into raw material and to be sold by auction in quadruplicate, certifying personal inspection. Reserve price should also be indicated for articles recommended for auction. While fixing reserve price it should, however, be seen that the prices so fixed will not lend themselves for profitable conversion as raw materials. In the case of articles recommended for conversion into raw material, reasonable price should be fixed taking into stock register. The above officers should also certify that the articles are unserviceable and beyond economical repairs.

As soon as the competent authority has sanctioned the disposal as recorded by the above mentioned officers, they will be auctioned, converted into raw material or destroyed in such a manner as they can neither be used again nor put up before any other authority in future.

## 2. AUCTION

(i) When the Government approve of a sale by auction, the date of auction as fixed will be given wide publicity in the Districts through the Block Development Officers/District Panchayat Officers etc. The auction will be supervised by a Committee consisting of the following:—

1. Deputy Commissioner of respective District or his representative.

2. District Industries Officer/Assistant District Industries Officer.

3. Assistant District Planning and Development Officer/Block Development Officer concerned in respect of urban and rural areas respectively.

(ii) After the goods have been disposed of by sale or auction, a sale account should be prepared in the following form:—

- (i) Item number.
- (ii) Particulars of stores.
